Vision and Purpose

We envision a world in which all people make reverence, gratitude, and care for the living Earth central to their lives.

Our purpose is to inspire, facilitate and support personal, congregational, and denominational practices that honor and sustain the Earth and all beings.

We affirm and promote the seven principles of the UUA, including:

*“Respect for the
interdependent web of all existence
of which we are a part.”*

Supporting the Vision

The work of UU Ministry for Earth is made possible by the financial contributions of its supporters; by dedicated volunteer efforts at the national, regional and congregational levels; by grants; and by the sale of resource materials.

We are an independent Related Organization partnering with the Unitarian Universalist Association and, as such, receive no financial support from the UUA.

Support the Future

Join with the many UUs who support UUMFE with annual gifts, donations and volunteer time. An annual donation by you or your congregation, a congregational plate offering, a targeted donation and becoming a Parent for the Planet all help support the goals and vision of UUMFE. UUMFE also has several volunteer roles available for people with appropriate skills and interests. More information is available our website.

- Make Unitarian Universalism a leading voice for Environment and Justice.
- Create quality resources to educate and inspire adults and children.
